IT'S NOT EATING, IT'S DINING

SNOOPY MUSEUM TOKYO

"Each person will bring what he feels is necessary.."

"Each person will bring what he feels is necessary,"
said Charlie Brown. What would it be like if the Peanuts Gang went on a picnic,
bringing food and drinks potluck style...?

Inspired by the words of Charlie Brown above, PEANUTS Cafe
in Minami-machida created a menu
by imagining the PEANUTS Gang's favorite food and drinks."

Good Morning! Chuck...Pancakes

A meal created by imagining what Peppermint Patty would consider
"a breakfast that clears your head."

This is a breakfast she wanted to have, which included a stack
of pancakes and two fried eggs, recreated minutely
with the same ingredients and numbers.

- Spicy Chicken & Pancakes
- Salad
- Granola and Yogurt (Melon)
- Drink

OUR POLICY FOR THE REMOVAL OF FOOD ALLERGENS

Potomac Co., Ltd. is doing its best to accommodate "customers with food allergies" so that they can enjoy their meals. Our basic policy when serving food and beverages is to place the highest priority on customer safety, so please be aware of the following items.

Regarding inquiries about "food allergies" of the products we offer

Although it is possible to remove specific ingredients that can be visually observed in the cooking process, it is difficult to completely remove even the components of specific ingredients because a variety of ingredients are prepared in the same environment in the kitchen, and there is a possibility of contamination (*1). In addition, allergenic ingredients may be included in seasonings and other ingredients, and we cannot guarantee the complete removal of allergenic ingredients. We cannot guarantee the complete elimination of allergenic ingredients. Please understand that we ask that you place your order at your own discretion.

1What is contamination?

1Contamination refers to the contamination of food products with small amounts of allergenic substances in the environment or during the cooking process, even if these substances are not used as ingredients in the product.

Regarding the removal of ingredients from our products for "other reasons," due to the environment of our restaurant kitchen (for the reasons mentioned above), we are unable to completely remove specific ingredients for "religious reasons" or "principle-oriented" reasons.

Thank you for your understanding.
